GETTING WHAT YOU NEED FROM YOUR IT

How to capture and communicate your requirements to make your IT initiatives a success

- > **Tuesday, 12 June 2018**
Co-Hab, Mitsubishi Admin Building
1 Tonsley Boulevard
Tonsley SA 5042
8:30am – 4:30pm
- > **Presenter**
Sonya Weiser
Wiser Connections

You know there is value in Information Technology systems, but you haven't proceeded with new initiatives because you're concerned the result won't be effective or that the project cost or resource requirements could blow-out.

This **free** workshop will help you scope your requirements, so you can quickly and effectively identify improvements in relevant systems and work towards their implementation.

This full-day workshop will:

- > Help you identify and prioritise the most important IT needs for your business
- > Give you the tools to document the information required to achieve a successful outcome

This is an interactive workshop best suited to companies with a level of complexity seeking to improve systems integration, including job costing, productive scheduling, inventory control and payroll.

For more information on this workshop, please contact Carissa Greenough on 0439 558 656 or carissa.greenough@businessfoundations.com.au.

The Entrepreneurs' Programme is the Australian Government's flagship initiative for business competitiveness and productivity. It forms part of the Government's National Innovation and Science Agenda. The Programme uses experienced Advisers and Facilitators, drawn from industry, to ensure businesses get the advice and support they need to improve their competitiveness, productivity and to maximize their growth potential. For more information go to www.business.gov.au/EP.
